

Atlas is the leading Intelligent Knowledge Platform for Microsoft 365, trusted by firms worldwide.

It centralizes, auto-classifies, and validates content from Microsoft 365, and other enterprise systems, delivering reliable answers from approved sources.

That's how Atlas enables professional services organizations to deliver exceptional services, with effective, frictionless and intuitive communication, collaboration and knowledge productivity experiences.

## What Atlas does for you

- Captures knowledge seamlessly, at scale across the firm.
- Provides accurate and authoritative answers to easily share with colleagues and clients.
- Increases productivity, making your firm more competitive when employees can find and share answers fast.
- Streamlines Microsoft tools, enterprise systems and content into a single platform.

"We have been hugely impressed with what we have been able to deliver to our tax users through the implementation of the technology – and we are confident that all the big goals we have set will be achieved."
